Dear Kerri:

Good morning Kerri. I appreciate that you stopped by to visit with us a while back. Your program is wonderful and did save the life of one of our young guys in the office. He had surgery two (2) weeks ago and is doing extremely well. I would like to thank you again for all the information you have given to us.

I also would like to know how often we should be scanned. Should it be on a yearly or 2 year basis. Please let me know. Thanks again.

Very truly yours,

Mary E. McDonnell
